Gender Research Prizes 2022

Dear lecturers, dear colleagues,

from the year 2010 on, we award Gender Research Prizes at CAU for excellent Master and PhD theses on topics with relevant gender aspects included. The awards are open to theses from all faculties and are endowed with:

- 1000,- € for a PhD thesis
- 500,- € for a master (or diploma) thesis.

The Gender Research Prizes will be awarded together with the Faculty Prizes on the 17th of May, 2022.

I would like to ask you for dissemination of this call in your institutes and for nominations of possible candidates who finished their theses in 2021, or have at least handed them in, until the 28th of February, 2022.

Please submit your nominations electronically to me. Required are a short summary of the thesis, the review(s), the grade given, and a short explanation of the relevant gender aspect. The selection will be made by the Central Committee on Gender Equality of the Senate.

Best wishes
Iris Werner
